

APEN International Conference 2006

6 8 March 2006 at Beechworth, Victoria, Australia

Practice change for sustainable communities: Exploring footprints, pathways and possibilities

8 March 2006

Refereed papers at the APEN 2006 International Conference

Papers reviewed and accepted for the APEN 2006 International Conference have been published in the proceedings on the Conference website at <http://www.regional.org.au/au/apen/2006/>

This statement is to confirm that the Conference Papers were reviewed in a manner compliant with the requirements of the Department of Education, Science and Training for a "Refereed Conference Proceedings". The peer-review process is described on the web-based proceedings. It comprised a 'one-way blind' review', involving a total 28 reviewers from various disciplines over the period September 2005-January 2006. Each paper was reviewed by at least one reviewer and an editor, and authors responded to comments and were allowed a two month period for revision of their papers. .

Yours sincerely

Dr R. John Petheram [for Conference Editorial Group]

The Australasia-Pacific Extension Network is the leading representative organisation for people whose work involves supporting change in regional communities. APEN represents members from disciplines like agriculture, health, resource management, and community capacity building across Australia, the Asia-Pacific and New Zealand.
